### Dress as Well as the Man Who Pays More

You can do it. You can have as many and as good clothes as the man who pays higher prices if you buy Clotheraft Clothes. In fit, style and dressiness--the things you can see for yourself-they are sure to please you and your friends.

Of the things you can't see or judge beforehandyou can be just as sure because Clothcraft Clothes are guaranteed to be all wool, to hold their shape and to satisfy in wear and service.

That's why the man who wears Clothcraft Clothes at \$10 to \$25 always gets credit for paying more.

It's a desirable kind of credit to have, and you will

CANDIDATES FOR COUNTY OFFICE MUST HAVE COR-RECT PAPERS TO GET ON BALLOT TOMORROW.

On and after Saturday next, May 3rd, candidates for county offices will get busy with petitions to get on the ballot. The petitions necessary under the operations of the new State primary law for candidates seeking party nominations, may be circulated on and after May 3, and must be filed with the County Clerk not later than July 3. Any nominating petition circulated by a candidate before May 3 will be worthless and disqualify him from getting on the primary ballots. Candidates for county offices are required to have on their petitions the signatures of not less than 3 per cent, and not an excess of 10 per cent, of the voters of the party in which they seek the nomination.

This is, based on the vote for the party's candidate for president at the last regular election. As the democratic vote in Rockcastle county for Woodrow Wilson was 859, candidates to get on the democratic ballot must have not less than 26 and not more than 86 names on each petition. The republican vote for Taft was 1082 so that republican condidates must get not less than 31 and not mare than 108 names to their petitions. As the Progressive polled 559 votes for Roosevelt, they must get not less than 16 and not more than 56 votes on their petitions.

The primary election law says that no eandidate can get his name upon the ballot of his party until he has filed his petition, stating the office for which he is a caudilate, his name, age, postoffice address, political affiliations and all other legal qualifications, and pledging himself. If nominated, not to withdraw, and, if elected, to qualify for the office.

Along with his petition each candidate must file a nominating petition, signed by electors of his city, county or district each of whom must declare intention to support the candidate for whom FOR GOOD ROADS they sign, and none of whom shall sign any other such paper for FORMER SENATOR BOURNE another seeking the same office. Some few weeks ago the store house and the goods of James W. Brown at Ottawa, this county, wa burned. On the building and Regular services at the Baptist had guite a lot of goods supposed from state fire marshal's office to Nortes. - The Democratic investigate and searching the house posed to belong to the postoffice, which Brown kept in the building and which, with all the stamps was reported to have burned also. Brown at first denied that the goods were in the house but later claimed that his son-in-law, Cash brought the goods there. Because of certain reports that are being cir culated relative to conduct of Cash, a brother of Brown's and his wife, which if true deserves the severest criticism, great feeling exists between Brown and his son-in-law Cash. Peel and evans were before secure indictments against Brown and his wife, with Cash as one of the prosecuting witnesses. , Visa yersa, Brown appeared before the same body, claiming his innocence internal injuries. tnem over our food and poisons us with typhoid and cholera. The mosquito with its bite injects into our veins malaria and yellow fever. The bacteria of consumption, or grip, are everywhere present for us to breathe into our lungs. The blood which flows through our veins and arteries is our protection. It should contain healthy red and white blood corpuscles-capable of warding off these disease germs. Dr. Pierce's Goiden Medical Discovery is a blood medicine and alterative made entirely without alcohol, a pure glyceric extract of bloodroot, golden seal, Oregon grape root, queen's root, mandrake and stone root, which has enjoyed a

good reputation for over forty years. The refreshing in-fluence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

"About forty years ago while in Newark, New Jersey, I had chills and fever," writes Mr. MICHAEL MAGUIRE, of National Military Home, Kans. "I went to Kansas City and in the spring of 1877 the chills and fever returned. Doctors and everything I tried failed to do me good. Finally I saw Dr. Pierce's Golden Medical Discovery advertised. I took one bottle of it and the chills vanished. In about a year afterward I felt them coming back to I got another bottle and have never had any symptoms of fever or ague since. That is all of twenty years ago, for I had the chills about twelve years before I started to take 'Golden Medical Discovery."

"What is the use of our going to the effort and expense of voting a county or a state dry if every man in such territory can order and get liquor shipped to him for his own use and the use of his friends and family? It is this practice which we intend to break up.

"Where a territory is voted dry, we intend that it shall be really dry. "We demanded of congress and secured the passage of the Webb law after years of effort, and we have no intention of letting a stream of whisky flow into dry territory protected by the excuse of a right to get the stuff twelve months. for personal use.
